Dear Parents and Carers

2022 – GROWING UP IN NORTH YORKSHIRE PUPIL SURVEY

Our school, along with the majority of North Yorkshire schools, has agreed to participate in the online 2022 Growing Up in North Yorkshire Survey for young people. The survey has been running in North Yorkshire since 2006 and information gained from individual school and county level analysis of this survey provides knowledge and understanding about the well-being, safety and learning of children and young people and influences school, county and locality planning and evaluation of provision. In 2020, over 16,500 pupils in North Yorkshire completed the survey. Participation in this year's survey will really support our understanding of children and young people's wellbeing following the pandemic.

The survey data is able to inform the review of provision in schools and school improvement priorities and has been used in a variety of ways. For example, to:

- Gain feedback from pupils about the ethos and culture of the school.
- Learn their opinions about learning, the enjoyment of lessons and the usefulness of key aspects of the curriculum related to wellbeing.
- Identify staff training needs.
- Provide information to inform review of a range of school policies.
- Identify the needs of different groups of pupils and further develop provision to meet those needs.
- Inform discussions with parents about aspects such as online safety

The survey that we are using has been commissioned by the North Yorkshire Children and Young People's Service, Public Health and North Yorkshire Police and is from the Schools Health Education Unit, Exeter.

The questions concern a wide range of perceptions and behaviours related to learning and wellbeing, for example:

- Enjoyment of lessons
- Attitudes and resilience for learning
- Transition
- Relationships
- Growing up

- Emotional health and wellbeing including bullying
- Safety including online safety
- Tobacco
- Alcohol
- Healthy Eating
- Physical activity

Our Year 2/3/4/5 and 6 children will be taking part. There is a hard copy of the questionnaire in school and if you would like to read it, you are welcome to do so by appointment.

The North Yorkshire Children and Young People's Service has worked closely with the Schools Health Education Unit to ensure that the content of the questionnaires is appropriate, with bespoke questionnaires for primary, secondary and special schools.

Each questionnaire is **anonymous** and **confidential**, and **no** pupil will be identified when the data is returned to our school. Individual schools are not identified in any of the county reports.

As in 2020, we would like to collect the home postcode of as many young people as we can. We are doing this to create maps and perform other analysis based on geography; the postcodes will be held separately and securely and your child will not be able to be identified.

I hope you will feel, as we do, that this is a very worthwhile survey which will support the wellbeing of all of our children, but do please let the school office know if you do not wish your child to take part.

The survey will be carried out between the dates of 16th and 27th May 2022.

Yours sincerely

Craig Bealey
Head of School
